CAREER OBJECTIVE

Entry-level Software Developer skilled in Java, Python, Javascript, Web Development, SQL and MySQL, with hands-on experience using Servlets, React and Spring Boot. Eager to apply my problem-solving abilities and full-stack development skills to contribute effectively to dynamic software teams.

EXPERIENCE

Java Intern

- Worked extensively on Core and Advanced Java concepts including OOP, exception handling, collections, and JDBC.
- Practiced Java database integration using JDBC for CRUD operations.
- Enhanced programming and debugging skills.
- Gained additional exposure to C programming.

PROJECTS

E-commerce Website — Sri Padmaja Fancy Stores

Tech Stack: HTML, CSS, PHP, MySQL, JavaScript

- Built a responsive e-commerce platform with product catalog and shopping cart.
- Integrated Razorpay payment gateway for secure payments.
- Developed admin dashboard for product and order management.

Banking Management System

Tech Stack: Java, JDBC, MySQL, Swing

- Built a GUI-based banking app supporting account creation and transactions.
- Used JDBC with MySQL for secure data storage.
- Implemented authentication and input validation using OOP principles.

Responsive React Portfolio — View Live Site

Tech Stack: React, HTML, CSS, JavaScript, Bootstrap

- Developed a responsive portfolio using React to showcase skills and projects, deployed on Vercel for fast and reliable online access.
- Built reusable components with smooth navigation across devices.
- Implemented a dynamic contact section enabling visitors to send messages directly through the website.

ACHIEVEMENTS

- **LeetCode 200 Days Badge:** Solved coding problems consistently for 200+ days.
- **Organizer, NIPUNA 2025:** Organized national-level symposium enhancing leadership skills.
